

## WESMAR TO EQUIP NATIONAL GEOGRAPHIC ENDURANCE

*The world's most advanced polar expedition ship, is under construction in Norway and WESMAR sonar will be on it!*

The new expedition cruise ship features a range of state-of-the-art technologies that will help it to navigate safely through some of the world's most remote locations, including several planned cruises through Arctic and Antarctic waters.

Vessel construction is well underway, and Wesmar's sonar is slated to be installed in April 2019. National Geographic Endurance is scheduled for delivery in January 2020.
